The June Bride Will Find Helpful Furniture Suggestions Here

JUNE is the month of roses and of weddings—and with the latter the Hartley Store is particularly concerned. Many brides and prospective brides are deep in the problems which must be solved in the furnishing of her new home. To one who has bought little or no furniture in her life, the selection of a household at one time is a task filled with much worry and uncertainty. Our showing and conservative methods of merchandising will, we think, prove helpful and comforting to the more or less distracted bride-to-be.

With us the primary object is to help our patrons in the making of pretty comfortable, substantial homes, and we measure the success of each such service, not in the amount of the sale involved, but in the completeness and satisfaction given.

Shop Around—Compare—Investigate Closely and See if This Isn't the Best Place to Buy Furniture

Visit every sale and so-called sale—get every store's reasonable and unreasonable excuse for cut prices, and then compare values with what Hartley's have to offer.

Your first thought in buying furniture should be reliability—is the furniture honest? Your next consideration—is the price lowest? Answer the first question yourself by a careful examination of the article—but let us help you to a better understanding of the second.

Every Mail Brings Notice of Increased Prices

—and the demand for furniture of good quality is greater than ever before in the history of the country. That is one of the reasons for high prices.

Right now our stocks are more complete than they have been for some time—

Bedroom, Diningroom, Livingroom and Summer Furniture—Kitchen Cabinets—Refrigerators—Ranges and Odd Pieces.

It is to your interest to buy now—buy at Hartley's where you have assurance of high quality and the full assurance of buying at lowest prices.

When You Pay More You Get More

The proportion of actual net profit to cost in manufacturing and retailing shoes, we believe, is down to minimum. Years ago shoes were as low as anything else; today shoes are lower proportionately than many other staple articles, yet their service, their beauty and comfort are greatly enhanced. You get more for your money in shoes by comparison.
